www.mountneyltd.com Made in China

## Fitting Instructions

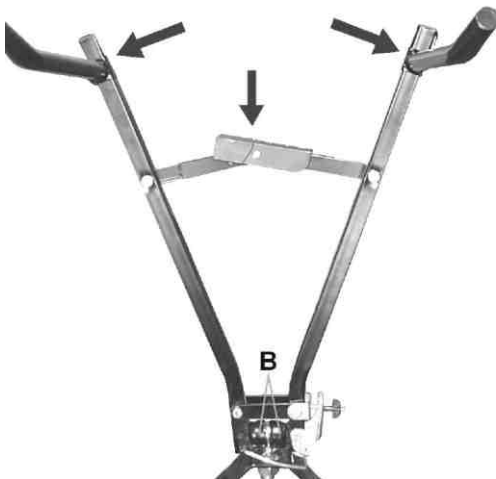

Please read fully before attempting to install onto vehicle

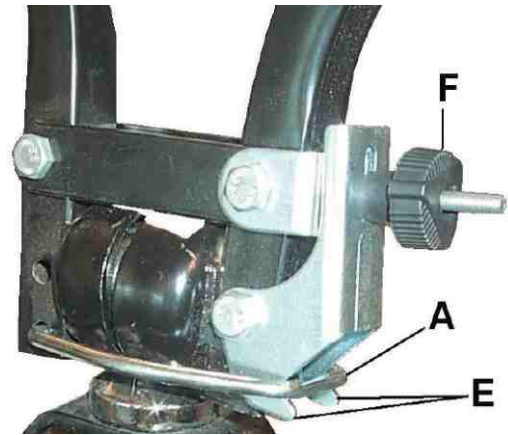

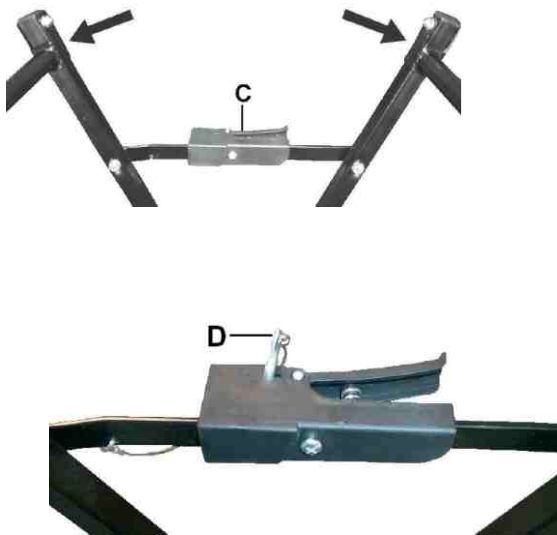

1. Extend both arms of the carrier

2. Place the circlip (a) over the tow ball of the vehicle.  
Place the two pieces (b) either side of the ball of the car.

3. Open the uprights, to adjust the two parts (b) around the tow ball of the car.  
Press the arm hard until the handle (c) locks

4. Lock the handle by inserting the safety pin (d) into the hole in the handle (c) Place the ring (a) in the hooks (e) and tighten the thread (f) in a clockwise direction.

Insert the adjustable holders for the bicycles frames (g) onto the arms and tighten with a screwdriver  
Install the bicycle and secure it with the retainers (g)

### **ADVICE**

Fix the wheels of the bicycles frame with a strap (not supplied) to prevent their rotation

### **REMOVAL**

Loosen the thread (f) in the anti clockwise direction to remove the ring (a) from the hooks

Remove the safety pin (d) from the handle (c)

Pull the handle (c) to unlock the arms

Close the arms and pull the carrier clear of the tow ball

### **ADAPT YOUR DRIVING**

**YOU SHOULD ADAPT YOUR DRIVING WHEN THIS BIKE CARRIER INSTALLED,  
ESPECIALLY WHEN BRAKING AND TURNING.**
